He has made hundreds of bad mistakes. He don't believe in that, any more than I believe in it, and so Mr. Allen before he is turned you will see it by and by, he will hunt up Allen and there are a heap of un-things the next twelve but that is one of the in-

Savoyard's Letter.

(Louisville Post.)

Washington, Aug. 10.—Well, there is just one name for it. It was born into the world with Cain. It is the twin brother of envy. That is what William Jennings Bryan has got, and got mighty bad. He represents two victories. Now, defeat hasn't got many rights in this world, but it has the right to rail at success. It does not do succeed any harm, but it does defeat a powerful sight of good. Mr. Bryan is a perfectly sincere man and has a good opinion of himself. He not only believes that he is the honestest man in the world, but he is thoroughly persuaded that he is the only honest man in the world. He is a sublime egotist, too, and is thoroughly convinced that anybody who does not believe as he believes is bought to believe what he does believe. Hence that blackguard speech at Urbana, O., the other day.

Let me tell you. The dead ones can't hurt Grover Cleveland. Cleveland is not going to pay any attention to them. The best-known man in America this minute is Grover Cleveland. Ten thousand times ten thousand men like Bryan might swear until they were blue, black and mulatto, that Grover Cleveland is a corrupt man, and nobody with sense enough to put up a panel of draw-balls will believe one word of it. Bryan only injures himself when he opens the vials of his blathering to pour them on the men whose shoes he is not fit to un-

And then the effrontery of it! It is pretty rough, but it is pertinent, and if Sir Walter Raleigh for Bryan is as worthless and as hopeless as Spain. He is the sick man of American politics, and attracted the attention of our public men for the same reason that Turkey holds the attention of the cabinets of Europe. He ought to be abolished just as Turkey ought, and will be when he turns his capers and shines next summer.

The one thing that is certain is that the Democratic party is not going to put up with any of Bryan's nonsense next year.

Washington, Aug. 8.—It is announced that the Republican party intends to concentrate all its energies on the Ohio campaign this year. It is Mark Hanna's fight, and the Thanes intend to rally to his support. Eloquence will be in the pocket from all quarters to swell the domestic supply, and the domestic supply is abundant. Dazell will go to preach protection in the Scioto valley, where old Bill Allen planted and nurtured and garnered big crops of Democracy in the days of the Democracy—pure and un-

in the next Democratic convention and in the next Presidential campaign. In 1904 Mr. Bryan will be nothing but a Republican "hand-plant." He is already an exploded phenomenon, a crushed orator and a discredited statesman.

He reminds one of Spain. As early as Richelieu's time Spain was the sick man of Western Europe; but for more than 100 years the statesmen of other powers were afraid of Spain. She had been so powerful, so rich and so great. This country is full of politicians who are afraid of Bryan—he had been such a boss in 1900, when he forced on the convention a platform it did not want. The truth is, Bryan is as worthless and as hopeless as Spain. He is the sick man of American politics, and attracted the attention of our public men for the same reason that Turkey holds the attention of the cabinets of Europe. He ought to be abolished just as Turkey ought, and will be when he turns his capers and shines next summer.
